## EXPERIENCE

### **YesLawyer**, New York City — *Back End Developer*

OCTOBER 2024 - JULY 2025

- Python/Django code review and deployments, identifying bad practices and implementing workflow optimizations to improve code quality.
- Integrated AI APIs for video, image, file and intake analysis, enabling automated document generation and conversational chatbots for clients and lawyers.
- Developed automation pipelines for phone call handling with leads and clients.
- Resolved EC2 Linux instance issues, configured Docker images, and used bug tracking tools to ensure platform stability and reliability.
- Supported new developers through the codebase, company workflows, and project structure.

### **Share Business**, Santiago de Chile — *Full Stack Developer*

JULY 2021 - JULY 2024

- Website maintenance and development of new features for Django applications.
- Development and configuration of Django projects for Websites, eCommerce, Corporate Social Networks, E-Learning Platforms, SAAS, etc.
- Participation in meetings with clients in order to define requirements, present progress and detect problems.
- Project planning, task assignments and guidance to co-workers to provide constructive feedback.

### **Calidad Competitiva**, Lima — *Front End Developer*

DECEMBER 2019 - FEBRUARY 2020

- In charge of the design (with Bootstrap) of a website for an internet service provider.
- Implementation in CodeIgniter with PHP.

## SKILLS

Python, Django  
JavaScript, ReactJS, Astro  
EC2, S3, Amplify, Route 53  
Docker, Google, AI  
Fast Learning, Quality  
Practicality, Initiative  
Adaptability

## PROJECTS

**Django Basic and Intermediate Course:** By the end of 2022 I had the opportunity to develop two Django courses for the Netzun E-Learning platform. This project allowed me to learn how to share my knowledge with newcomers, and improve my communication with students by answering their questions.

## LANGUAGES

English c2 Proficient

Spanish Native
